Our summary

The Alabama Soybean Producers are seeking research proposals for projects that would run from March 1, 2027 through February 28, 2028. Applicants should submit a proposal of no more than two pages by early January 2027. Each proposal needs a title, principal investigator details including contact information, a statement of whether the work is new or a continuation, and a plain-language summary aimed at farmers explaining objectives and industry value. The remaining sections should cover concise objectives, the rationale and economic importance, the methods for carrying out the work, and a budget breakdown listing salary, fringe benefits, supplies, travel and other costs. The funder will weigh the amount requested and prefers that its money act as seed funding that attracts additional sources. Indirect costs, faculty salaries and equipment purchases will not be paid, though equipment rental is permitted. Selected teams will present their projects in person afterward, with the meeting date and location to be announced later.
