Our summary

The City of Morgan Hill wants qualified electrical engineering consultants for three separate service areas that firms may pursue individually or in combination. Area one covers design of publicly accessible electric vehicle charging at three city-owned downtown sites, including construction documents and utility coordination with the local electric utility. Area two covers replacing the emergency generator at the police department and rewiring an unserved section of the building, including permitting support for air quality approvals. Area three establishes an on-call bench for task-order electrical engineering work over three years, such as studies, retrofits, peer reviews and forensic investigations. Proposals are capped at ten pages excluding covers, transmittal letter, tabs, fee schedule and a wage theft form, and must include a scope selection statement, relevant municipal references, work approach, team with licensed electrical engineers, a schedule, and a separate sealed fee...

Federal award history doesn't apply to this issuer

Federal award history covers federal contracts only. For state, local, education, private and non-profit RFPs, market context comes from the RFPs RFP Detector has seen: how active this issuer is, how many similar RFPs appear in the same state, and the typical published value once enough of them state one.
